Select an option that this wizard will use to obtain data about this relying party:

- ☐ Import data about the relying party published online or on a local network.

Use this option to import the necessary data and certificates from a relying party organization that publishes its federation metadata online or on a local network.

Federation metadata address (host name or URL):

Example: fa.contoso.com or https://www.contoso.com/app

- ☒ Import data about the relying party from a file

Use this option to import the necessary data and certificates from a relying party organization that has exported its federation metadata to a file. Ensure that this file is from a trusted source. This wizard will not validate the source of the file.

Federation metadata file location:

Browse...

- ☐ Enter data about the relying party manually

Use this option to manually input the necessary data about this relying party organization.
